Testimonials

Personally, the course has reinforced my thoughts and made my voice louder. It has eased me into the role that I handle and enabled me to navigate my way towards everything true to inclusion. With a strong alumni network of like/better-minded individuals as a safe space to bounce and bring ideas to belonging, not just because it's the right thing to do, but as it's also the smart thing!

CDP program was a complete eye-opener for me. The course really helps you to understand the meaning and significance of Diversity, Equity & Inclusion in its' true spirit. The program focuses not just on learning about finer aspects of DEI but it also challenges you as a person and professional to think holistically, to unlearn & challenge your own assumptions and most importantly to keep discovering and exploring the subject as you undertake this journey. Kudos to Interweave and DTUI for making the program so enriching and meaningful for all the participants. I am very glad to have gone through this transformation experience which has helped me being more well-informed about the subject and self-aware about myself.
